10/21/2010		Lexus, a Division of Toyota Motor Sales, USA, Inc.	<p>Manufacturer Recall Issued NHTSA #10V499 Recall #ALG Safety Recall ALG - Certain 2006 Model Year Lexus IS and GS Vehicles &amp; Certain 2004 through 2006 Model Year RX Vehicles Brake Master Cylinder Cup Replacement Status: Remedy Available</p> <p>Locate an authorized <a href="#">Lexus dealer</a> near you to schedule an appointment</p> <p>- <a href="#">Learn more about this recall</a></p>
<p><b>Description:</b> Toyota is recalling certain Model Year 2005-2006 Avalon, Model Year 2004-2006 Highlander, Model Year 2004-2006 Lexus RX, and Model Year 2006 Lexus GS and IS vehicles. Brake fluid containing polymers is used that acts as lubricants for certain brake system components. If replacement brake fluid is used that does not contain such polymers, or that contains only small amounts, a part of the rubber seal located at the rear of the brake master cylinder may become dry, and the seal may curl during movement of the piston. If this occurs, a small amount of brake fluid could slowly leak from the seal into the brake booster.</p> <p>A leak of brake fluid could lead to a change in brake pedal feel and overtime a degradation in braking performance increasing the risk of a crash.</p> <p><b>Remedy:</b> Dealers will replace the seal with a newly designed one. This service will be performed free of charge. The safety recall began on November 15, 2010. Owners may contact Toyota at 1-800-331-4331 and Lexus at 1-800-255-3987.</p>			
02/24/2011		Lexus, a Division of Toyota Motor Sales, USA, Inc.	<p>Manufacturer Recall Issued NHTSA #11V112 Recall #BLC Safety Recall BLC - Certain 2004 ? Early 2007 Model Year RX 330, RX 350 and RX 400h Vehicles Driver's Side Floor Carpet Cover and Retention Clip Status: Remedy Available</p> <p>Locate an authorized <a href="#">Lexus dealer</a> near you to schedule an appointment</p>

[- Learn more about this recall](#)

**Description:** Toyota is recalling certain Model Year 2004-2006 Highlander, Highlander Hybrid, and Model Year 2004-2007 Lexus RX330, RX350, and RX400h vehicles. If the forward retention clip used to secure the floor carpet cover, which is located in front of the center console, is not installed properly the cover may lean toward the accelerator pedal and interfere with the accelerator pedal arm.

If this occurs, the accelerator pedal may temporarily become stuck in a partially depressed position rather than return to the idle position. A stuck accelerator pedal may result in unintended and sustained vehicle speeds and make it difficult to stop, increasing the risk of a vehicle crash.

**Remedy:** Dealers will replace the floor carpet cover with a newly designed one free or charge. Owners may contact Toyota at 1-800-331-4331.

11/09/2011	Lexus, a Division of Toyota Motor Sales, USA, Inc.	Manufacturer Recall Issued NHTSA #11V539 Recall #BLG Safety Recall BLG - Certain 2004 and 2005 Model Year ES 330 and RX 330 and Certain 2006 Model Year RX 400h Vehicles - 1MZ-FE/3MZ-FE V6 Engine Crankshaft Pulley - Remedy Available Status: Remedy Available
------------	--	---

[- Learn more about this recall](#)

**Description:** Toyota is recalling certain Model Year 2004 Avalon vehicles; 2004 and 2005 Camry, Camry Solara, Highlander, and Sienna vehicles, 2006 Highlander Hybrid; 2004 and 2005 Lexus ES330 and RX330; and 2006 Lexus RX400h vehicles manufactured from June 1, 2004 through mMarch 31, 2005, equipped with the 1MZ-FE or 3MZ-FE engine. The amount of adhesive agent applied between the outer ring and the torsional rubber damper (inner ring) in the crankshaft pulley may be inadequate. If the adhesive is insufficient, there is a possibility that the outer ring may become misaligned and it may not properly rotate with the inner ring, causing noise and/or illumination of the battery discharge indicator light.

In some cases, the belt for the power steering pump may become detached from the pulley which could result in a loss of power steering and a sudden increase in steering effort, increasing the risk of a crash.

**Remedy:** Toyota will notify owners, and dealers will check the crankshaft pulley to identify whether it was produced by the U.S. supplier. If so, the dealer will replace the pulley with a new one at no charge. Owners may contact Toyota at 1-800-331-4331.

Hmm, we haven't received any information on this car since November 2011. Before you buy, ask the seller for recent service or repair records.

**CARFAX** Glossary
[View Full Glossary](#)

**CARFAX Price Adjustment™**  
 Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

**First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

**Inspections**

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

**Lexus Recall**

Toyota Motor Sales, USA, Inc. provides CARFAX with recall information within the last 10 model years for vehicles originally marketed or sold in the United States of America and its territories. Only open Safety or Emissions recalls, where the remedy is available and has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall activity for any Lexus vehicle, go to <http://lexus.com/recall>.

**Manufacturer Recall**

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
