07/29/2010	Lexus, a Division of Toyota Motor Sales, USA, Inc.	<p>Manufacturer Recall Issued NHTSA #10V346 Recall #ALF Safety Recall ALF - Certain 2003 through 2007 Model Year Lexus LX 470 Vehicles Steering Shaft Status: Remedy Available</p> <p>Locate an authorized Lexus dealer near you to schedule an appointment</p> <p>- Learn more about this recall</p>
<p>Description: Lexus is recalling certain model year 2003-2007 Lexus LX470 vehicles. The construction of the steering shaft is such that the snap ring on the shaft may disengage when the vehicle experiences an unusually severe impact to the front wheels. If the snap ring becomes disengaged and the steering wheel is then repeatedly turned to the locked position, over time the steering shaft may become disconnected.</p>		

This could result in loss of steering control increasing the risk of a crash.

Remedy: Dealers will replace the snap ring with a newly designed one and install an additional component which will prevent separation of the steering shaft. This service will be performed free of charge. The safety recall began on August 23, 2010. Owners may contact Lexus at 1-800-255-3987.

Hmm, we haven't received any information on this car since July 2010. Before you buy, ask the seller for recent service or repair records.

CARFAX Price Adjustment™
Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Lexus Recall
Toyota Motor Sales, USA, Inc. provides CARFAX with recall information within the last 10 model years for vehicles originally marketed or sold in the United States of America and its territories. Only open Safety or Emissions recalls, where the remedy is available and has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall activity for any Lexus vehicle, go to <http://lexus.com/recall>.

Manufacturer Recall
Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Ownership History
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
