June 1, 2015

TO: Toyota Parts and Service Managers

SUBJECT: Discontinuation of TRD Supercharger Program

Toyota will no longer support the TRD Supercharger on a going forward basis effective with the 2016 Model Year. All current inventories of Superchargers and associated components will be sold down to zero stock levels, and the product will no longer be offered for sale once those units are gone. **Until June 30, 2015, dealers will be limited to a maximum purchase quantity of 5 Superchargers** and 5 each of any of the related parts (fit kit, etc.). Any orders exceeding this limit will be canceled. After June 30th, dealers will be able to order any remaining Supercharger part numbers remaining in inventory without limitations.

Please note that Service Replacement Parts and technical support for past models will continue to be available for at least ten years, per the Toyota Dealer Agreement terms. **However, no ECM calibration will be made available for any future model year vehicles, beginning with all MY16 vehicles.**

The table on the next page contains all TRD Supercharger part numbers that will be impacted by the decision to discontinue sales for this product line:

5.7L V-8 Tundra		
PTR29-34070	5.7L V-8 Main Kit	2007-2013
