02/24/2011		Lexus, a Division of Toyota Motor Sales, USA, Inc.	<p>Manufacturer Recall Issued NHTSA #11V112 Recall #BLC Safety Recall BLC - Certain 2004 ? Early 2007 Model Year RX 330, RX 350 and RX 400h Vehicles Driver's Side Floor Carpet Cover an Retention Clip Status: Remedy Available</p> <p>Locate an authorized <a href="#">Lexus dealer</a> near you schedule an appointment</p> <p>- <a href="#">Learn more about this recall</a></p>
<p><b>Description:</b> Toyota is recalling certain Model Year 2004-2006 Highlander, Highlander Hybrid, and Model Year 2004-2007 Lexus RX330, RX350, and RX400h vehicles. If the forward retention clip used to secure the floor carpet cover, which is located in front of the center console, is not installed properly the cover may lean toward the accelerator pedal and interfere with the accelerator pedal arm.</p> <p>If this occurs, the accelerator pedal may temporarily become stuck in a partially depressed position rather than return to the idle position. A stuck accelerator pedal may result in unintended and sustained vehicle speeds and make it difficult to stop, increasing the risk of a vehicle crash.</p> <p><b>Remedy:</b> Dealers will replace the floor carpet cover with a newly designed one free or charge. Owners may contact Toyota at 1-800-331-4331.</p>			
11/09/2011		Lexus, a Division of Toyota Motor Sales, USA, Inc.	<p>Manufacturer Recall Issued NHTSA #11V539 Recall #BLG Safety Recall BLG - Certain 2004 and 2005 Model Year ES 330 and RX 330 and Certain 2006 Model Year RX 400h Vehicles - 1MZ-FE/3MZ-FE V6 Engine Crankshaft Pulley - Remedy Available Status: Remedy Available</p> <p>Locate an authorized <a href="#">Lexus dealer</a> near you schedule an appointment</p> <p>- <a href="#">Learn more about this recall</a></p>
<p><b>Description:</b> Toyota is recalling certain Model Year 2004 Avalon vehicles; 2004 and 2005 Camry, Camry Solara, Highlander, and Sienna vehicles; 2006 Highlander Hybrid; 2004 and 2005 Lexus ES330 and RX330; and 2006 Lexus RX400h vehicles manufactured from June 1, 2004 through March 31, 2005, equipped with the 1MZ-FE or 3MZ-FE engine. The amount of adhesive agent applied between the outer ring and the torsional rubber damper (inner ring) in the crankshaft pulley may be inadequate. If the adhesive is insufficient, there is a possibility that the outer ring may become misaligned and it may not properly rotate with the inner ring, causing noise and/or illumination of the battery discharge indicator light.</p> <p>In some cases, the belt for the power steering pump may become detached from the pulley which could result in a loss of power steering and a sudden increase in steering effort, increasing the risk of a crash.</p> <p><b>Remedy:</b> Toyota will notify owners, and dealers will check the crankshaft pulley to identify whether it was produced by the U.S. supplier. If so, the dealer will replace the pulley with a new one at no charge. Owners may contact Toyota at 1-800-331-4331.</p>			

09/04/2013 Lexus, a Division of Toyota Motor Sales, USA, Inc. Manufacturer Recall Issued NHTSA #13V396 Recall #DLF Safety Recall DLF - Certain 200 through 2008 Model Year RX 400H Vehicles Intelligent Power Module (IPM) Replacement Status: Remedy Available

Locate an authorized [Lexus dealer](#) near you to schedule an appointment

- [Learn more about this recall](#)

**Description:** Toyota is recalling certain model year 2006-2010 highlander hybrid vehicles manufactured february 16, 2005, through july 29, 2010; and model year 2006-2008 lexus rx400h vehicles manufactured february 23, 2005, through december 2, 2008. The intelligent power module (ipm) inside the inverter module may contain transistors that have higher operating temperatures than the solder can support and the transistors may be heat damaged by the solder. If this occurs, various warning lamps, including the malfunction indicator lamp, slip indicator light, brake system warning light, and master warning light, will be illuminated on the instrument panel.

The vehicle may enter a fail-safe/limp-home mode that limits the drivability of the vehicle. It is possible that the hybrid system will shut down while the vehicle is being driven, causing the vehicle to stall unexpectedly, increasing the risk of a crash.

**Remedy:** Toyota will notify owners, and dealers will replace the ipm free of charge. Owners may contact Toyota at 1-800-331-4331. Vehicles that had their ipm replaced under recall 11v-342 are not affected by this campaign.

## **CARFAX** Glossary

[View Full Glo](#)

### **CARFAX Price Adjustment™**

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### **Lexus Recall**

Toyota Motor Sales, USA, Inc. provides CARFAX with recall information within the last 10 model years for vehicles originally marketed or sold in the United States of America and its territories. Only open Safety or Emissions recalls, where the remedy is available and has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall activity for any Lexus vehicle, go to <http://lexus.com/recall>.

### **Manufacturer Recall**

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle's history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
